

AGERIGHT

CARE AT HOME

Hospice services

The philosophy of the AgeRight Hospice program and the services we provide are drawn from more than 30 years of experience serving seniors in long-term care facilities operated by Marquis Companies, one of the nation's finest providers.

AgeRight Hospice services include:

- An interdisciplinary care team configured to meet each patient's unique and changing needs, as determined by regular assessments, goals of care and disease/symptom progression:
- Medical director/physician
- RNs/LPNs, home health aides
- Triage nurse
- Medical social worker
- Chaplain/spiritual advisor
- Volunteer coordinator/volunteers
- Bereavement coordinator
- Registered dietician
- Physical, occupational or speech therapists
- Medication for symptom control and pain relief
- All medical equipment and supplies, such as a hospital bed, wheelchair or walker, oxygen, bandages, etc.
- Periodic home visits by hospice team members, with availability 24/7
- Physical, occupational or speech therapy (access determined by assessment)
- Short term in-patient care (when home setting doesn't allow adequate pain and symptom management)
- Short-term respite care for family caregivers
- Grief and loss counseling for patient and loved ones (available to family members for ___ months after death)
- Supportive visits from compassionate volunteers
